- Correct your colleagues if you see them making a mistake using radio chat or the radio. (Senior 1+ ONLY)
- Use a calm tone when correcting your colleagues and do not ever raise your tone or correct aggressively.
- Know that it is our job to correct each other so we do not repeat mistakes and that we are not targeting you for any reason, our job relies on us posting ads flawlessly to the eyes of the public.
- Once corrected, reply to us so we know you acknowledged the mistake.
- Use the radio for work purposes only!

Templates:

We can not post ADs for the templates of the same business / office back to back as it will be considered as unnecessary spamming. If there are no ADs except for the templates of a particular business / office, you need to wait for 3 ADs to come and get published before posting the same template twice. If different businesses / offices are being advertised, you are allowed to post these ADs. The only exception is to make sure not to post the same business / office templates over and over again without the necessary gaps in the publishing board.
